

# HACCPtrax Real-time Tool Tracking & Accountability

The HACCPtrax™ Inventory Control System is a tool tracking and accountability software that reduces costs, eliminates paperwork, and prevents foreign material recalls.

**Real-time information!**

**Amerisan will stock tagged goods, so inventory is available at a moment's notice**

## Realtime Reporting includes:

- Reconciliation
- Lifecycle
- Assigned
- Missing
- Scrap

## Anything tagged can be tracked Examples:

- Knives and shears
- Arm guards
- Mesh gloves
- Safety Glasses
- Totes and bins
